Hi there!

Always need you, but know you have other things in your life. We will likely be talking about how to more narrowly define the Administrator's "cessation" order in a memo from Jim and Reggie. I also will be on the 4 pm NRT call and will tell a little of this to the other Agencies; not sure if you want to call in to that. Thanks – Dana

Ps 4:30 call in info: **Nonresponsive Conference Code**

Hi Dana –

Do you need me at 4:30?

Thanks. We can help. How will the States be informed?

Charlotte Bertrand

Acting Director

Federal Facilities Restoration and Reuse Office

Office Phone: 703-603-0049

Yes, you could/should be on call. As soon as we see the communication from the Administrator's office, we will share. I think it would be good to hold off anything to the OFAs until after the Administrator's note and the DD call. I'll send you the call-in info when I get it. Thanks - Dana

Dana –

Yes – Charlotte is in training and not immediately available.

If you send us the Administrator's note we can use it as a script or email to the OFAs.

Would you like us to wait until the DD call in case phones to the regions start ringing?

Would you like us to be on the 4:30 call?

Shawna is going over to ASTSWMO in 10 mins - - but I am here.

Thanks

Charlotte, I think you told me you are in training and e-mail is the best way to reach you.

Heads up on some stuff related to the mining incident in Colorado.

Some time later today the Administrator's office is planning to send a note to the Regions telling them to stop field investigation work at mines while we proceed with a root cause investigation of what led to the spill at the Gold King Mine. We are also planning a SF DD call at 4:30. There is also a 4:00 pm NRT call in which we plan to tell other Agencies we are doing this. We thought it might be good for the FFRRO network to get word out to your contacts in the other federal agencies especially those with mine responsibilities.

Let me know if you have questions, want more info, have advice, etc. Thanks - Dana
